Subject: Notes from CSLA @ Selma Ave. Conference Call, 1/4

Thanks for participating in today's call to discuss plans for a scheduled CSLA cleanup at Selma Ave. and Schrader Blvd. on 1/23. Participants on the call included: CD13, Mayor's Office, LAHSA, LASAN, BSS, LAPD, and the City Attorney's Office.

We discussed the following:

- * CD13 has requested a full CSLA cleanup at Selma Ave. and Schrader Blvd. on Wednesday, 1/23.
- * The CSLA cleanup will occur and be posted for a specific time on that day and not a range (e.g., between 9am and 12pm). Exact time TBD.
- * The polygon for the cleanup will be prepared by LASAN no later than Monday, 1/7. The polygon will be approved and finalized at that time. LAHSA requested this information ASAP to include in outreach workers' messaging.
- * LAHSA outreach workers will immediately begin messaging about the cleanup. LAHSA will coordinate with the E6 team to ensure the E6 team's messaging is consistent. (Note: the E6 team participates in CD13's regular Monday morning call.)
- * LASAN will add one trash can to the southeast corner of Selma and Schrader and one trash can to the southwest corner of Selma and N. Las Palmas Ave. (two blocks west of Schrader). These trash cans, along with other new trash cans that were recently added to that area (see attached map), will be serviced by LASAN twice weekly to start.
- * LASAN is confirming a 4-yard dumpster will be placed in the area of Selma and Schrader for at least one 24-hour period each week.
- * The group agreed there will be regular spot cleanings at Selma and Schrader following the full cleanup on 1/23. These spot cleanings will be conducted by LASAN and supported by the LAPD's Hollywood CORE Unit as needed (force protection only).
- * The Council Office agreed to explore placing a portable restroom and/or shower services at or near the location, and possibly at Blessed Sacrament. The Council Office and Mayor's Office will discuss the issue further, including with Blessed Sacrament.
- * The West Bureau HOPE Team will continue its outreach and engagement efforts in the area (per the ABH protocols). The HOPE Team will not engage in enforcement activities in the area.

The group acknowledged the goal of the ABH protocols was to not conduct comprehensive cleanups in Focus Areas around ABH facilities during the 120-day period around the opening of an ABH facility, and that CSLA cleanups, while not the preferred option, remained a possibility as long as the UHRC Policy Group discussed and planned for such an event well in advance. Every partner on the call expressed comfort in the aforementioned plan for the scheduled CSLA cleanup on 1/23.

Finally, the group agreed all spot cleanings - and spot cleaning requests - will be coordinated directly through the UHRC.

Please let me know if I missed or misstated anything.

Thanks.

Brian
